AGE 22	HEIGHT 6'0"	ETHNIC BACKGROUND Moroccan
EDUCATION Computer Science	CAREER DIRECTION Tech, SWE & AI	PSL MHTN

Currently working in the tech field while finishing my Computer Science degree, with a long-term focus on Software Engineering and AI. I am serious about building a stable future, but I do not want to delay marriage until life is "perfect." I want to build with the right person in a halal, family-oriented way.

DEEN & DAWAH

Islam and dawah are genuine passions of mine. I have spent much of my life studying Islam, and I plan to keep seeking knowledge for the rest of my life. I try to let Islam shape my values, priorities, and view of marriage instead of letting modern trends define them for me.

MASJID & CONTENT

I volunteer at the masjid, help with Islamic programs, teach when I am able, and make educational Islamic videos and reminders. Across my platforms, I have reached around **17k followers** with beneficial Islamic reminders, dawah content, and short educational posts.

FAMILY & COMMUNITY

My father serves as Imam and VP at a masjid he built during my childhood. Growing up around the masjid shaped me a lot. Over time, I have also built connections with Muslim organizations and masaajid across the continent, and I regularly work with recognized dawah figures, including Uthman ibn Farooq.

PERSONALITY & LIFESTYLE

I like to have fun, stay active, and fixate on new hobbies. The gym is a big part of my life and one of the main ways I build discipline. I also enjoy technology, cooking, anime, traveling, learning new things, and picking up practical skills that make me more capable.

MARRIAGE MINDSET

I see marriage as worship, protection, responsibility, and companionship. I care about mercy, loyalty, good communication, and building a calm home. I prefer a straightforward process where families are involved early once there is real mutual interest.

LOOKING FOR

I am looking for a practicing sister who takes deen seriously and wants a peaceful, family-centered marriage. Someone modest, feminine in character, respectful in communication, and not argumentative by nature. I would love a wife who is like-minded about Islamic and traditional family roles, wants many children, and wants to build a warm home together.

- Open to watching anime, traveling, and learning new things together
- Values haya, family, growth in deen, and a calm home environment
- Comfortable building from an early stage instead of expecting everything finished from day one

HADITH

"Marriage is part of my Sunnah, and whoever does not follow my Sunnah has nothing to do with me."
Sunan Ibn Majah 1846

QUR'AN

"Whoever fears Allah, He will make a way for him and provide for him from where he does not expect."
Surah At-Talaq 65:2-3
